

Clean Heating Contractors

Clean Heating and Cooling Contractors

The HVAC contractors listed below have expressed interest in assisting municipalities with a NYSERDA CEC Clean Heating and Cooling campaign. HVRC asked them for details on how they could assist with these campaigns and we have published that information here. These are the providers who responded to HVRC's request for information and by no means is this a comprehensive list. For more options, please see the [NYSERDA Clean Heat Contractors list](#). This PDF lives on HVRC's Community Campaigns Resources webpage.

HVRC provides impartial technical assistance and does not promote companies or services. All NYSERDA Clean Heat Contractors were offered the opportunity to be featured here. If you are an HVAC contractor that would like to be featured here, please contact:

epeck@hudsonvalleyrc.org.

A.Borrelli Mechanical

- **Website/Contact Information:**

<https://www.aborrelli.com/>

ltorres@aborrelli.com

914-301-7495

- **Service Areas:**

Putnam, Rockland, and Westchester Counties

- **Clean Heating Technologies Offered:**

Mini-splits (cold climate)

Ducted air source heat pumps

Geothermal Systems

Air source heat pump hot water heaters

- **What is the general installation timeline? Are there clean heating products in stock to install on a short timeline?**

We have been getting a great turn-around from our suppliers.

- **Are there electricians on staff to update electrical panels to support the switch to electric heating and cooling?**

No

- **Do you offer financing? What are the options? Is it available to all clients?**

Financing is available to all our customers.

- **Do you educate consumers about the federal and state incentives and tax credits available for clean heating and cooling technologies?**

Yes

- **Do you educate consumers about the need for insulation and weatherization upgrades before installing heat pumps?**

Yes, to help them understand it will guarantee efficiency against rising energy costs.

- **Do you have an easy way for customers to speak with a representative? What else about your customer service would you like municipalities to know?**

Our customer service department is friendly and knowledgeable.

- **Are you Building Performance Institute Certified? Any other certifications, such as AEE, ASHRAE, etc.?**

ASHRAE

- **Are you willing to work with a municipality on outreach for a NYSERDA Clean Energy Communities Campaign? This will involve reporting back to them sign-ups in their municipality. If yes, are there any additional incentives or support you will provide the municipality, such as marketing assistance?**

Sure.

- **Do you offer bilingual services?**

Yes

Ackerman Mechanical Inc

- **Website/Contact Information:**

<https://www.ackermanmechanical.com/>

Brian Ackerman, ackermanmechanical@hotmail.com

845-416-8758

- **Service Areas:**

Dutchess and Ulster Counties

- **Clean Heating Technologies Offered:**

Mini-splits (cold climate)

Ducted air source heat pumps

Geothermal Systems

Air source heat pump hot water heaters

- **What is the general installation timeline? Are there clean heating products in stock to install on a short timeline?**

Yes

- **Are there electricians on staff to update electrical panels to support the switch to electric heating and cooling?**

Yes

- **Do you offer financing? What are the options? Is it available to all clients?**

No

- **Do you educate consumers about the federal and state incentives and tax credits available for clean heating and cooling technologies?**

Yes

- **Do you educate consumers about the need for insulation and weatherization upgrades before installing heat pumps?**

I recommend any attics that house HVAC equipment to be insulated for optimal performance of the equipment and structure.

- **Do you have an easy way for customers to speak with a representative? What else about your customer service would you like municipalities to know?**

Yes

- **Are you Building Performance Institute Certified? Any other certifications, such as AEE, ASHRAE, etc.?**

Yes

- **Are you willing to work with a municipality on outreach for a NYSERDA Clean Energy Communities Campaign? This will involve reporting back to them sign-ups in their municipality. No

Alpine Air Heating & A/C, LLC

- **Website/Contact Information:**

<https://www.alpineaironline.net/>

Bob Bogert bbogert@alpineaironline.net

(845) 508-6271

- **Service Areas:**

Dutchess, Sullivan, and Ulster Counties

- **Clean Heating Technologies Offered:**

Mini-splits (cold climate)

Ducted air source heat pumps

Geothermal Systems

Air source heat pump hot water heaters

- **What is the general installation timeline? Are there clean heating products in stock to install on a short timeline?**

1-2 weeks

- **Are there electricians on staff to update electrical panels to support the switch to electric heating and cooling?**

Yes

- **Do you offer financing? What are the options? Is it available to all clients?**

Yes, we work with several different lenders so we have lots of different financing options.

- **Do you educate consumers about the federal and state incentives and tax credits available for clean heating and cooling technologies?**

Yes

- **Do you educate consumers about the need for insulation and weatherization upgrades before installing heat pumps?**

Yes. This is important because if the building is tighter and better insulated, it requires less heating and cooling, which can greatly reduce the installation costs.

- **Do you have an easy way for customers to speak with a representative? What else about your customer service would you like municipalities to know?**

Our sales team is available any time to speak with customers.

- **Are you Building Performance Institute Certified? Any other certifications, such as AEE, ASHRAE, etc.?**

No

- **Are you willing to work with a municipality on outreach for a NYSERDA Clean Energy Communities Campaign? This will involve reporting back to them sign-ups in their municipality. If yes, are there any additional incentives or support you will provide the municipality, such as marketing assistance?**

Yes. In fact, we have done this before. We were a part of the Town of Warwick Heat Smart program and also the Orange County Heat smart program.

- **Do you offer bilingual services?**

Yes

COE Mechanical LLC

- **Website/Contact Information:**

Dan Nazzaro, dan.nazzaro@gmail.com

845-750-7388

- **Service Areas:**

Ulster County

- **Clean Heating Technologies Offered:**

Mini-splits (cold climate)

Ducted air source heat pumps

Geothermal Systems

Air source heat pump hot water heaters

Solar thermal

- **What is the general installation timeline? Are there clean heating products in stock to install on a short timeline?**

Installation is never more than a few days except for geothermal, which is more of an engineering process.

- **Are there electricians on staff to update electrical panels to support the switch to electric heating and cooling?**

No

- **Do you offer financing? What are the options? Is it available to all clients?**

No

- **Do you educate consumers about the federal and state incentives and tax credits available for clean heating and cooling technologies?**

Yes

- **Do you educate consumers about the need for insulation and weatherization upgrades before installing heat pumps?**

Yes. Insulation is the most important part of going green.

- **Do you have an easy way for customers to speak with a representative? What else about your customer service would you like municipalities to know?**

I enjoy the process of building the most cost effective and energy efficient solution for any given project. I am always available to inform clients about their options free of charge.

- **Are you Building Performance Institute Certified? Any other certifications, such as AEE, ASHRAE, etc.?**

No

- **Are you willing to work with a municipality on outreach for a NYSERDA Clean Energy Communities Campaign? This will involve reporting back to them sign-ups in their municipality. If yes, are there any additional incentives or support you will provide the municipality, such as marketing assistance?**

Yes

- **Do you offer bilingual services?**

No

D Rohde Heating Plumbing and AC

- **Website/Contact Information:**

<https://drtotherescue.com/>

Dan Rohde, dan@drohdeheatingandac.com

845-453-9072

- **Service Areas:**

Dutchess, Orange, and Ulster Counties

- **Clean Heating Technologies Offered:**

Mini-splits (cold climate)

Ducted air source heat pumps

Air source heat pump hot water heaters

- **What is the general installation timeline? Are there clean heating products in stock to install on a short timeline?**

1-2 weeks. We mostly have heating products in stock.

- **Are there electricians on staff to update electrical panels to support the switch to electric heating and cooling?**

Yes

- **Do you offer financing? What are the options? Is it available to all clients?**

We offer financing options either 12-month same as cash or 24 months 0% interest. They are available to those who qualify with a credit check.

- **Do you educate consumers about the federal and state incentives and tax credits available for clean heating and cooling technologies?**

Yes

- **Do you educate consumers about the need for insulation and weatherization upgrades before installing heat pumps?**

Yes. We use the envelope analogy and let them know that even if they put the most efficient heating or cooling system in their house, if it isn't insulated, they are not maximizing their savings.

- **Do you have an easy way for customers to speak with a representative? What else about your customer service would you like municipalities to know?**

We can typically have a home comfort specialist visit a home within a few days of receiving a call. We have office staff from 7:30 – 6 pm Monday through Friday, and 10 am – 4 pm on Saturdays. As for municipalities, there are some that are easier to work with than others. The ones that require pre-site inspections typically can't get there for weeks. Thus, delaying the install.

- **Are you Building Performance Institute Certified? Any other certifications, such as AEE, ASHRAE, etc.?**

No

- **Are you willing to work with a municipality on outreach for a NYSERDA Clean Energy Communities Campaign? This will involve reporting back to them sign-ups in their municipality. If yes, are there any additional incentives or support you will provide the municipality, such as marketing assistance?**

Yes we would be interested.

- **Do you offer bilingual services?**

No

DS Home Services

- **Website/Contact Information:**

<https://dshomeservices.com/>

admin@DSHomeServices.com

845-240-1235

- **Service Areas:**

Dutchess, Orange, and Ulster Counties

- **Clean Heating Technologies Offered:**

Mini-splits (cold climate)

Air source heat pump hot water heaters

- **What is the general installation timeline? Are there clean heating products in stock to install on a short timeline?**

Within 2 weeks, usually depending on permits. We have all our products in stock or readily accessible.

- **Are there electricians on staff to update electrical panels to support the switch to electric heating and cooling?**

Yes

- **Do you offer financing? What are the options? Is it available to all clients?**

Yes, we have options from 18 months same as cash, up to as long as 11 years at a cost. Available to anything over \$500.

- **Do you educate consumers about the federal and state incentives and tax credits available for clean heating and cooling technologies?**

Yes

- **Do you educate consumers about the need for insulation and weatherization upgrades before installing heat pumps?**

We have scripted conversations during consultation and refer to local companies we work with.

- **Do you have an easy way for customers to speak with a representative? What else about your customer service would you like municipalities to know?**

Yes, we have call-in and text options to our office line (phone number listed above) and our office email is monitored by multiple people throughout the day.

- **Are you Building Performance Institute Certified? Any other certifications, such as AEE, ASHRAE, etc.?**

No

- **Are you willing to work with a municipality on outreach for a NYSERDA Clean Energy Communities Campaign? This will involve reporting back to them sign-ups in their**

municipality. If yes, are there any additional incentives or support you will provide the municipality, such as marketing assistance?

Yes

- **Do you offer bilingual services?**

Yes

Energy Efficiency Experts

- **Website/Contact Information:**

<https://saveenergy.expert/>

914-290-1414

- **Service Areas:**

Westchester County

- **Clean Heating Technologies Offered:**

Mini-splits (cold climate)

Ducted air source heat pumps

Air source heat pump hot water heaters

Free Energy Audit

- **What is the general installation timeline? Are there clean heating products in stock to install on a short timeline?**

2 weeks after permits are issued.

- **Are there electricians on staff to update electrical panels to support the switch to electric heating and cooling?**

Maybe

- **Do you offer financing? What are the options? Is it available to all clients?**

Yes, GJGNY Financing with special low financing in geographically approved areas.

- **Do you educate consumers about the federal and state incentives and tax credits available for clean heating and cooling technologies?**

Yes

- **Do you educate consumers about the need for insulation and weatherization upgrades before installing heat pumps?**

Yes, we can conduct an energy audit.

- **Do you have an easy way for customers to speak with a representative? What else about your customer service would you like municipalities to know?**

Yes

- **Are you Building Performance Institute Certified? Any other certifications, such as AEE, ASHRAE, etc.?**

We are a BPI Gold Star Contractor.

- **Are you willing to work with a municipality on outreach for a NYSERDA Clean Energy Communities Campaign? This will involve reporting back to them sign-ups in their municipality. If yes, are there any additional incentives or support you will provide the municipality, such as marketing assistance?**

I am willing.

- **Do you offer bilingual services?**

Yes

Energy Management Solutions, LLC

- **Website/Contact Information:**

<https://www.energymanagementsolutions.com/>

Jason Scher info@energymanagementsolutions.com

- **Service Areas:**

Orange, Rockland, Ulster, and Westchester Counties.

- **Clean Heating Technologies Offered:**

Mini-splits (cold climate)

- **What is the general installation timeline? Are there clean heating products in stock to install on a short timeline?**

2-4 weeks

- **Are there electricians on staff to update electrical panels to support the switch to electric heating and cooling?**

Maybe

- **Do you offer financing? What are the options? Is it available to all clients?**

We offer NYSERDA EFS Loans.

- **Do you educate consumers about the federal and state incentives and tax credits available for clean heating and cooling technologies?**

Yes

- **Do you educate consumers about the need for insulation and weatherization upgrades before installing heat pumps?**

Yes. We are primarily a weatherization contractor so this is normal procedure for us.

- **Do you have an easy way for customers to speak with a representative? What else about your customer service would you like municipalities to know?**

Yes, of course. Please see our website (link above).

- **Are you Building Performance Institute Certified? Any other certifications, such as AEE, ASHRAE, etc.?**

Yes, we are BA and Envelope BPI certified.

- **Are you willing to work with a municipality on outreach for a NYSERDA Clean Energy Communities Campaign? This will involve reporting back to them sign-ups in their municipality. If yes, are there any additional incentives or support you will provide the municipality, such as marketing assistance?**

Sure, I am open to learning more!

- **Do you offer bilingual services?**

Yes

Yes

- **Do you offer bilingual services?**

Yes

INF Associates, LLC

- **Website/Contact Information:**

<https://www.infassociates.com/>

Alex Mikszewski, PE, CEM at amikszewski@infassociates.com

845-249-8574

- **Service Areas:**

Dutchess, Orange, Putnam, Rockland, Sullivan, Ulster, and Westchester Counties.

- **Clean Heating Technologies Offered:**

Mini-splits (cold climate)

Ducted air source heat pumps

Geothermal Systems

Air source heat pump hot water heaters

Wastewater heat recovery

- **What is the general installation timeline? Are there clean heating products in stock to install on a short timeline?**

Installation timeline varies based on scope of job. We do not have products in stock, but we work with a number of different suppliers.

- **Are there electricians on staff to update electrical panels to support the switch to electric heating and cooling?**

Maybe

- **Do you offer financing? What are the options? Is it available to all clients?**

We have partners who offer financing. Options and availability depend on the scale of the application.

- **Do you educate consumers about the federal and state incentives and tax credits available for clean heating and cooling technologies?**

Yes

- **Do you educate consumers about the need for insulation and weatherization upgrades before installing heat pumps?**

Yes. We take a holistic approach to energy efficiency and decarbonization and perform a comprehensive walk-through with the customer to evaluate envelope and other improvements.

- **Do you have an easy way for customers to speak with a representative? What else about your customer service would you like municipalities to know?**

INF Associates, LLC has worked in the Mid-Hudson region for over a decade with an office in Newburgh. We are proud to serve the Mid-Hudson region.

- **Are you Building Performance Institute Certified? Any other certifications, such as AEE, ASHRAE, etc.?**

We have multiple staff who are licensed NY professional engineers and AEE certified energy managers.

- **Are you willing to work with a municipality on outreach for a NYSERDA Clean Energy Communities Campaign? This will involve reporting back to them sign-ups in their municipality. If yes, are there any additional incentives or support you will provide the municipality, such as marketing assistance?**

Yes, we are passionate about helping communities with outreach and training.

- **Do you offer bilingual services?**

Yes

LJW Refrigeration A/C

- **Website/Contact Information:**

Leonard Wood, lenz001@yahoo.com

- **Service Areas:**

Dutchess, Orange, Putnam, Sullivan, and Westchester Counties.

- **Clean Heating Technologies Offered:**

Mini-splits (cold climate)

- **What is the general installation timeline? Are there clean heating products in stock to install on a short timeline?**

2 weeks

- **Are there electricians on staff to update electrical panels to support the switch to electric heating and cooling?**

No

- **Do you offer financing? What are the options? Is it available to all clients?**

No

- **Do you educate consumers about the federal and state incentives and tax credits available for clean heating and cooling technologies?**

Yes

- **Do you educate consumers about the need for insulation and weatherization upgrades before installing heat pumps?**

Yes. I go through what they currently have and explain the benefits of upgrading.

- **Do you have an easy way for customers to speak with a representative? What else about your customer service would you like municipalities to know?**

Email is the best way to reach me.

- **Are you Building Performance Institute Certified? Any other certifications, such as AEE, ASHRAE, etc.?**

No

- **Are you willing to work with a municipality on outreach for a NYSERDA Clean Energy Communities Campaign? This will involve reporting back to them sign-ups in their municipality. No

Metro NY Insulation, LLC.

- **Website/Contact Information:**

<https://www.metronyinsulation.com/>

info@metronyinsulation.com

845-445-8255

- **Service Areas:**

Dutchess, Orange, Rockland, Sullivan, and Westchester Counties

- **Clean Heating Technologies Offered:**

Insulation Upgrades to improve energy efficiency

- **What is the general installation timeline? Are there clean heating products in stock to install on a short timeline?**

We can install an insulation project as quickly as 24 hours post contract.

- **Are there electricians on staff to update electrical panels to support the switch to electric heating and cooling?**

No

- **Do you offer financing? What are the options? Is it available to all clients?**

Yes. We participate in the NYSERDA financing programs as allowed.

- **Do you educate consumers about the federal and state incentives and tax credits available for clean heating and cooling technologies?**

Yes.

- **Do you educate consumers about the need for insulation and weatherization upgrades before installing heat pumps?**

Yes. We encourage insulation as part of any energy efficiency and clean heat upgrade.

- **Do you have an easy way for customers to speak with a representative? What else about your customer service would you like municipalities to know?**

Our office is available to discuss insulation needs any time.

- **Are you Building Performance Institute Certified? Any other certifications, such as AEE, ASHRAE, etc.?**

We are BPI certified.

- **Are you willing to work with a municipality on outreach for a NYSERDA Clean Energy Communities Campaign? This will involve reporting back to them sign-ups in their municipality. If yes, are there any additional incentives or support you will provide the municipality, such as marketing assistance?**

Yes, absolutely!

- **Do you offer bilingual services?**

No

RYCOR Heating and Cooling

- **Website/Contact Information:**

<https://www.rycorhvac.com/>

team@rycorhvac.com

845-742-5110

- **Service Areas:**

Dutchess, Orange, Putnam, Rockland, Sullivan, Ulster, and Westchester Counties

- **Clean Heating Technologies Offered:**

Mini-splits (cold climate)

Air source heat pump hot water heaters

Insulation

- **What is the general installation timeline? Are there clean heating products in stock to install on a short timeline?**

2-3 weeks to install. We have 3 million dollars' worth of inventory in stock.

- **Are there electricians on staff to update electrical panels to support the switch to electric heating and cooling?**

Yes

- **Do you offer financing? What are the options? Is it available to all clients?**

Yes, we offer 0% for 18 months and long term financing, as well as NYSERDA loan programs.

- **Do you educate consumers about the federal and state incentives and tax credits available for clean heating and cooling technologies?**

Yes

- **Do you educate consumers about the need for insulation and weatherization upgrades before installing heat pumps?**

Yes, we conduct blower door test and use infrared camera.

- **Do you have an easy way for customers to speak with a representative? What else about your customer service would you like municipalities to know?**

We have a large call center.

- **Are you Building Performance Institute Certified? Any other certifications, such as AEE, ASHRAE, etc.?**

We are BPI certified.

- **Are you willing to work with a municipality on outreach for a NYSERDA Clean Energy Communities Campaign? This will involve reporting back to them sign-ups in their municipality. If yes, are there any additional incentives or support you will provide the municipality, such as marketing assistance?**

Yes

- **Do you offer bilingual services?**

Yes

The Geothermal Group LLC

- **Website/Contact Information:**

<https://www.geothermalgroup.com/>

geopro@geothermalgroup.com

845-234-5002

- **Service Areas:**

Dutchess, Orange, Putnam, Rockland, Sullivan, Ulster, and Westchester Counties

- **Clean Heating Technologies Offered:**

Geothermal Systems

Hybrid geothermal systems for hydronic applications

- **What is the general installation timeline? Are there clean heating products in stock to install on a short timeline?**

For residential installations, it typically takes 90-120 days. It varies depending on equipment supply chain and permitting.

- **Are there electricians on staff to update electrical panels to support the switch to electric heating and cooling?**

No

- **Do you offer financing? What are the options? Is it available to all clients?**

We do not offer financing. We refer financing to New York entities and CECU.

- **Do you educate consumers about the federal and state incentives and tax credits available for clean heating and cooling technologies?**

Yes

- **Do you educate consumers about the need for insulation and weatherization upgrades before installing heat pumps?**

Yes. We present the cost savings they will enjoy (we've developed proprietary algorithms) by air sealing and insulating the structure and demonstrate from client interaction the added comfort proper insulation delivers.

- **Do you have an easy way for customers to speak with a representative? What else about your customer service would you like municipalities to know?**

Yes. Clients can reach us by email, text or phone.

- **Are you Building Performance Institute Certified? Any other certifications, such as AEE, ASHRAE, etc.?**

We have BPI accreditations in ducting and building analyst.

- **Are you willing to work with a municipality on outreach for a NYSERDA Clean Energy Communities Campaign? This will involve reporting back to them sign-ups in their municipality. If yes, are there any additional incentives or support you will provide the municipality, such as marketing assistance?**

We have the best marketing in the geothermal design/installation business and we're willing to share what we've learned over the past two decades developing our geothermal business.

- **Do you offer bilingual services?**

No

Thermodynamix

- **Website/Contact Information:**

<https://thermodynamixllc.com/>

info@thermodynamixll.com

914-909-4108

- **Service Areas:**

Orange, Putnam, Rockland, and Westchester Counties

- **Clean Heating Technologies Offered:**

Mini-splits (cold climate)

Ducted air source heat pumps

Air source heat pump hot water heaters

- **What is the general installation timeline? Are there clean heating products in stock to install on a short timeline?**

Equipment is available, we have mini-splits in stock.

- **Are there electricians on staff to update electrical panels to support the switch to electric heating and cooling?**

Yes

- **Do you offer financing? What are the options? Is it available to all clients?**

Yes. 18 months and 10-year financing. We use Synchrony, NYSERDA, and NEIF.

- **Do you educate consumers about the federal and state incentives and tax credits available for clean heating and cooling technologies?**

Yes

- **Do you educate consumers about the need for insulation and weatherization upgrades before installing heat pumps?**

Yes. We provide load calculations as the house currently is and if they were decide to make insulation upgrades. We work with an insulation company; most of the time we install a much smaller system after they do the spray foaming, leading to lower operating costs.

- **Do you have an easy way for customers to speak with a representative? What else about your customer service would you like municipalities to know?**

Yes, we have office staff available for customer support.

- **Are you Building Performance Institute Certified? Any other certifications, such as AEE, ASHRAE, etc.?**

Yes, we are BPI and ACCA certified.

- **Are you willing to work with a municipality on outreach for a NYSERDA Clean Energy Communities Campaign? This will involve reporting back to them sign-ups in their municipality. If yes, are there any additional incentives or support you will provide the municipality, such as marketing assistance?**

Yes

- **Do you offer bilingual services?**

No

Wesco 53 Heating and Cooling Inc

- **Website/Contact Information:**

<https://www.wesco53.com/>

info@wesco53.com

914-303-8674

- **Service Areas:**

Westchester County

- **Clean Heating Technologies Offered:**

Mini-splits (cold climate)

Ducted air source heat pumps

Air source heat pump hot water heaters

- **What is the general installation timeline? Are there clean heating products in stock to install on a short timeline?**

1-14 day turnover for all installations

- **Are there electricians on staff to update electrical panels to support the switch to electric heating and cooling?**

No

- **Do you offer financing? What are the options? Is it available to all clients?**

Yes. An email address and a soft credit pull is required for each client to see finance options available to them.

- **Do you educate consumers about the federal and state incentives and tax credits available for clean heating and cooling technologies?**

Yes

- **Do you educate consumers about the need for insulation and weatherization upgrades before installing heat pumps?**

Yes. We offer free consultations.

- **Do you have an easy way for customers to speak with a representative? What else about your customer service would you like municipalities to know?**

We respond to email inquiries very quickly.

- **Are you Building Performance Institute Certified? Any other certifications, such as AEE, ASHRAE, etc.?**

No

- **Are you willing to work with a municipality on outreach for a NYSERDA Clean Energy Communities Campaign? This will involve reporting back to them sign-ups in their municipality. If yes, are there any additional incentives or support you will provide the municipality, such as marketing assistance?**

Yes

- **Do you offer bilingual services?**

Yes
