

Grantor priorities, available funding, anticipated deadlines, and required elements may change from year to year. The following information provides an overview of requirements for funding sources that support storm water, wastewater, and drinking water projects but is susceptible to change and should be verified when funding announcements are made.

To discuss Wastewater funding opportunities further, contact Ryan Corbett at rcorbett@hudsonvalleyrc.org; and for storm and drinking water funding opportunities, contact Lauren Bunce at lbunce@hudsonvalleyrc.org

Clean Water State Revolving Fund (CWSRF)

Infrastructure

- Wastewater
- Sewer

Eligible Projects:

- Repairing and upgrading WWTP & collection systems
- Reducing or eliminating CSO or SSO
- Leachate collection, storage, and treatment

Anticipated deadline:

End of May

No required match

Environmental Facilities Corporation

- Projects scored, ranked, and prioritized for funding
- Engineering report required
- Subsidized financing for DAC/IJIA municipalities

Community Development Block Grant (CDBG)

Urban Development

- Infrastructure
- Public Services

Eligible Projects:

- Construction of Publicly Owned Treatment Works
- Acquisition of property
- Rehabilitation of infrastructure

Anticipated deadline:

End of July

No required match

U.S. Department of Housing and Urban Development

- Aimed at low & moderate income communities
- Population requirements
- Max award of \$1M for public facilities

Drinking Water State Revolving Fund (DWSRF)

Infrastructure

- Drinking Water

Eligible Projects:

- Construction or rehabilitation of treatment facilities, transmission and distribution systems, or storage facilities
- Consolidation or purchase of water systems

Anticipated deadline:

End of May

No required match

Environmental Facilities Corporation & Dept. of Health

- Projects scored, ranked, and prioritized for funding
- Engineering report required
- Subsidized financing for DAC/IJIA municipalities

Engineering Planning Grant (EPG)

Planning

- Wastewater
- Inflow & Infiltration

Eligible Projects:

- Engineering reports
- Preliminary inflow and infiltration studies

Anticipated deadline:

June

No required match

Environmental Facilities Corporation & Dept. of Health

- Available for Mid-Hudson municipalities with MHI less than \$90,000
- Finalized reports must conform to EFC Engineering Report Outline format

Green Innovation Grant Program (GIGP)

Infrastructure

- Stormwater
- Water & Energy efficiency

Eligible Projects:

- Restoration of floodplains, riparian buffers, streambanks, wetlands
- Green infrastructure: bioretention, green roofs, porous pavement, or stormwater collection

Anticipated deadline:

June

Project dependent match of 10-50%

Environmental Facilities Corporation

- Maximum award of \$3M
- Project match based on MHI and project category
- Project category may require an engineering report

Green Resiliency Grant (GRG)

Infrastructure

- Stormwater
- Water quality
- Flood risk reduction

Eligible Projects:

- Restoration of floodplains, riparian buffers, streambanks, wetlands
- Green infrastructure: bioretention, green roofs, porous pavement, stormwater collection

Anticipated deadline:

June

10% match required

Environmental Facilities Corporation

- Maximum award of \$10M
- 35% of available funds held for DAC municipalities
- Projects must address an existing water quality concern

Intermunicipal Water Infrastructure Grant (IMG)

Infrastructure

- Wastewater
- Drinking Water

Eligible Projects:

- Infrastructure construction and rehabilitation
- Emerging contaminant projects
- Lead service line inventories or replacement

Anticipated deadline:

July

No required match

Environmental Facilities Corporation & Dept. of Health

- Requires an Intermunicipal Agreement (IMA)
- Total award is the lesser of \$30M or 40% of net project costs

Northern Border Regional Commission (NBRC) - Catalyst Program

Economic Development:

- Planning
- Infrastructure

Eligible Projects:

- Basic public infrastructure including utility services, transportation, telecommunications, and healthcare.
- Business and workforce development

Anticipated deadline:

June & December

20% or 50% match

Northern Border Regional Commission

- Available only for Sullivan County municipalities
- Match based on economic distress
- \$1M maximum award
- Available for contractor and consultant fees

Non-Agriculture Nonpoint Source & MS4 Mapping Grant (NPG)

Planning

- Water quality
- Stormwater management

Eligible Projects:

- Nonpoint source planning reports
- MS4 mapping
- Engineering feasibility studies

Anticipated deadline:

July

10% match required

Department of Environmental Conservation

- Nonpoint Source Grant available to all municipalities
- MS4 & Stormwater Management Plan Grant only available for MS4 regulated areas

Resilient Watershed Grant Program (RWG)

Implementation:

- Flood risk reduction
- Resilience

Eligible Projects:

- Restoration of floodplains, wetlands, shorelines, streambanks
- Removal of berms, dams, culverts, and bridges
- Stream daylighting

Anticipated deadline:

June

10% match required

Environmental Facilities Corp. & Dept. of Environmental Conservation

- Available in areas with a finalized Resilient NY or DEC approved comparable study
- Flood risk reduction and flood resilience enhancement projects are considered priorities

Septic Replacement Fund

Private Infrastructure:

- Septic systems

Eligible Projects:

- Replacement of cesspools and septic systems
- Septic system upgrades
- Installation of enhanced treatment technology

Anticipated deadline:

Rolling

50% to 75% match required

Environmental Facilities Corporation

- Septic system must be within an area of a DEC designated Priority Waterbody
- Not available in Orange County
- Fund available for private systems

Water Infrastructure Improvement Grant (WIIG)

Infrastructure:

- Wastewater
- Drinking water

Eligible Projects:

- Infrastructure construction, replacement, or repair
- Mitigation of contaminants of emerging concern
- Lead service line inventories and replacement

Anticipated deadline:

July

No required match

Environmental Facilities Corporation & Dept. of Health

- Maximum award for Drinking water projects is \$5M, and \$25M for Wastewater projects
- Can be combined with CWSRF & DWSRF
- Requires SHPO Project Review Determination Letter

Water & Waste Disposal Land and Grant Program

Infrastructure:

- Drinking water
- Waste disposal
- Storm water

Eligible Projects:

- Drinking water systems
- Sanitary sewage disposal & sanitary solid waste disposal
- Storm water drainage to households

Anticipated deadline:

Rolling

No required match

United States Department of Agriculture

- Must be designated as a rural community
- Only available for rural municipalities with populations less than 10k
- Can be used to purchase existing infrastructure

Water Quality Improvement Project Program (WQIP)

Infrastructure:

- Wastewater
- Drinking water

Eligible Project Categories, including:

- Wastewater treatment improvement, non-agriculture nonpoint source abatement, vacuum trucks, land acquisition, salt storage & reduction, dam safety, aquatic conductivity, habitat restoration

Anticipated deadline:

July

25% match required

Department of Environmental Conservation

- Engineering reports required for certain project categories
- Maximum award amount varies by project category

Watersheds Grants Program (WG)

Implementation:

- Water Quality
- Habitat Loss

Eligible Projects must address at least one of the following:

- Habitat loss with significant impacts on fisheries and water quality
- Impacts of nonpoint source pollution, excess nutrients and warmer water temperatures on aquatic life and ecosystems

Anticipated deadline:

TBD

30% match required or 23% of total cost

National Estuary Program

- Grant was not available in 2026
- Available only in designated areas by the National Estuary Program
